ANN SACKS® CONTEXT OFFERS NEW MOSAIC DESIGN AND NEW COLOR

PORTLAND, Ore. (April 26, 2011) – ANN SACKS, a premier manufacturer and distributor of tile, stone and plumbing products, introduced a new metallic colored and pillowed mosaic to Context as part of its line-up at the 2011 Kitchen and Bath Industry Show in Las Vegas. Suitable for modern and classic interiors with a uniform 1-3/4-inch width complemented by multiple length options, Context offers for a range of precisely coordinated horizontal and vertical pattern installations.

Context is a dry press porcelain tile expertly fabricated by Japanese artisans exclusively for ANN SACKS. Joining the earlier palette of Gloss White or Matte White finishes is a deep, rich black metallic glaze. Additionally, a gently pillowed mosaic was designed, giving textural effect to a wall. The mosaic is available in the new metallic black, as well as the Gloss White or Matte White. Context is available as a flat or pillowed 1-3/4x1-3/4 mosaic or in 1-3/4x5-1/2- and 1-3/4x11 fields with a variety of trims making it ideal for large installations.

Primarily developed for indoor vertical applications, the matte finish is also suitable for light use floors, while the mosaics are perfect for curved walls. Context is frost proof allowing it to work for certain exterior installations subject to moderate climate and method of installation.

Founded in 1981, ANN SACKS has built its reputation with inspiring designs in tile, stone, plumbing, lighting and accessories. Based in Portland, Ore., the company is a division of the Kohler Co. Interiors Group, a wholly owned subsidiary of Kohler Co., which also includes Kallista plumbing, Baker Knapp & Tubbs, Inc., Baker furniture, Baker Knapp & Tubbs Showrooms and Baker Stores, McGuire Furniture Company, and Mark David hospitality furniture.
