

Renowned Boston artisan Tony Davlin created the Davlin glass accessory collection to complement his ANN SACKS Davlin glass tile program. The collection is comprised of: a tray and soap dish, which achieve their luster by pressing 24-karat rose-colored goldleaf between two pieces of art glass; and a waste basket, vase and tumbler, hand-blown from crystal clear glass fused with 24-karat rose-colored goldleaf.

Maintenance & Important Considerations

- Hand wash with mild cleanser. Do not use abrasives.
- Hand blown items are not dishwasher safe.
- An eggshell lacquer tissue box and soap pump in brown brushed under the Broadway collection are designed to coordinate with the Davlin rose-colored gold leaf glass accessories.

Collection

Designs: tray
 soap dish
 tumbler
 vase
 wastebasket

Finish: rose goldleaf, goldleaf, antique goldleaf
