

Hand-poured recycled bronze is married with rich, handcrafted American walnut to create our incredible Vista accessory collection. Stunning and original, the colors and textures of these two materials complement each other beautifully.

### Maintenance & Important Considerations

- Keep wood accessories free of dust. It is recommended to clean using a soft, moist, lint-free cloth followed with a dry cloth.
- Clean bronze pieces with mild soap and water.
- Do not use furniture polish, strippers containing acid, vinegar, bleach or abrasives on bronze or wood pieces.
- Expect bronze to develop a rich patina over time.
- As with any handmade product, expect some variation. Direct sunlight may alter the appearance of the wood.

### Collection

Designs: tray (bronze or wood with bronze handles)  
soap dish  
vase  
canister  
tissue cover  
wastebasket

Finish: recycled bronze and American walnut
